1. This application is in condition for allowance except for the following formal matters.

The amendment filed 7/8/2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows.

Regarding line 1-2 of the abstract, the claimed invention is drawn to a method of inhibiting "microvascular bleeding", not "cardiovascular bleeding". Regarding lines 2-3 of the abstract the specification as originally filed discloses "prevents anticoagulation by greater than 90% of activated protein C *in human plasma*", but does not disclose the aforementioned method absent the limitation "in human plasma".

Applicant is required to cancel the new matter in the reply to this Office Action.
